Queanbeyan NSW 2620

Dear Sir/Madam

RE: Rezoning Proposal for Tralee

The National Capital Attractions Association would like to submit its opposition to the proposal to rezone the Tralee development from rural to residential.

We understand that Tralee lies under an existing flight path of Canberra International Airport and feel that developing the land at Tralee for residential purposes will inevitably lead to noise issues for future residents. This could then restrict the potential of Canberra International Airport to attract international flights into Canberra, thereby affecting tourism in the region.

For the long term interests of the region, we feel that the land at Tralee should remain a rural or industrial zone.

Yours sincerely

Heather Millard
President

National Capital Attractions Association Inc.
